SEAL EXPANSION CAPACITY		
Drain Size	Fits into Pipe ID	Fully Expandable Seal
3"	2-7/8" - 3-1/4"	3.40"
4"	3-7/8" - 4-1/4"	4.40"
5"	5-7/8" - 6-1/4"	6.40"

### PRODUCT DESCRIPTION:

Designed as a retrofit drain option for installation into various sized existing leader pipes. It is constructed from a heavy-duty one-piece spun aluminum body with cast aluminum clamping rings. The True Seal™ Retrofit Drain has a factory applied True Seal™ retrofit drain target sheet that can be hot air welded directly to the new True Seal™ Roof Systems finished surface. It features a strong mechanical ProSeal rubber seal to make a watertight connection between the installed drain and the drain leader. The True Seal™ Retrofit Drain is equipped with a heavy duty cast aluminum strainer dome that bolts securely into the drain body for strength, and durability.

### PACKAGING:

Individually boxed (18" x 18" x 16").

### FEATURES:

- One-piece seamless heavy-duty body manufactured from 0.81 ga. spun aluminum
- Extra large 16" diameter drain flange
- Factory applied and sealed reinforced 23" x 23" True Seal membrane target
- Three bolt, heavy duty Aluminum Strainer dome; 10" diameter with 4-5/8" height
- Heavy Duty cast aluminum 1-1/4" tall clamping ring with drainage scallops to enhance drainage
- 12" long drain stem
- Simple and easy to install
- Available as an overflow
- 2" drain comes with a 2" wide band of high density expanding foam tape in place of the ProSeal rubber seal

### SIZES:

2", 3", 4", 5" and 6"
