## Authorized Contractors

Fully engineered installation specifications ensure all roofing requirements are planned in advanced. Our authorized contractors have received extensive training to ensure consistent quality workmanship.

## Eco Sustainability

**Energy Efficient:** Reflectivity reduces cooling costs

**Solar Ready:** Light weight, durable and fire resistant

**Waste Deferral:** Can be used as a successful retrofit system

**Life Cycle:** Fully recyclable now and in the future

**Green Roofing:** The perfect system for vegetative rooftop systems

## Implementation

Developed for minimal disruption during installation and accompanied with accessories for custom applications. TRUE SEAL™ manufactures with precision fabrication guaranteeing each project is intentionally designed for success.

## PROTECTION

Same trusted and proven formulation since 1978. Custom fitted to your individual building. Able to meet every project need, TRUE SEAL™ ensures maximum protection for each unique roof system.

## DURABLE

Our membrane has received extensive testing and has passed strict standards for water, fire, wind and UV resistance. All TRUE SEAL™ products have achieved top class ratings for each of their respective applications.

## ENVIRONMENTAL

Installation is achieved without any open flames or foul asphalt odours. 100% reclaimable membranes allow TRUE SEAL™ roofs to be removed and recycled at the end of their very long life-cycles.

## RESISTANT

Permanent bonds activated by heat-welded seams form a solid barrier, resulting in a lasting product that will withstand the test of time. In fact: TRUE SEAL™ has no exclusions for Ponding Water; Ponding Water will not affect the watertight integrity of your TRUE SEAL™ Roof system.

## IMPROVEMENT READY

TRUE SEAL™ roofing systems are adaptable and can be easily modified to suite your ever-changing needs. Removing obsolete penetrations or adding new curbs, day lighting or solar panels has never been easier. A low-upkeep design maximizes the return on investment in your TRUE SEAL™ roofing system.
