

## Seal Guard Membrane Plus Warranty

Warranty#:

### TERMS CONDITIONS AND LIMITATIONS

TS Roofing Systems, Inc. proudly warrants to the Owner listed below, subject to the terms, conditions, and limitations stated in this warranty. TS will replace the affected portion of purchased membrane from TS that failed due to a manufacturing defect(s).

1. This Limited Warranty applies only to the membrane and PVC membrane accessories (cones, corners etc.) supplied by TS installed over compatible substrates by a True Seal Authorized Contractor in an exposed (fully adhered, wind ballasted or mechanically attached) assembly or other such approved configurations that must be installed per TS installation specifications.
2. This limited warranty is effective only during the time period specified below. During the term of the warranty, upon request, Owner shall provide TS with access to the area, where the roofing system is installed, for inspection during normal business hours.
3. This warranty shall be valid only if all materials, warranty and labor charges have been paid in full to the installation contractor and TS. Owner must sign warranty copy and return to TS for warranty registration. The warranty will not be in force without this signature and returned copy.
4. Owner should consult the TS "Roof Care Guide" included in the warranty package for proper care of the installed TS Roof. This document is also available on the TS website. Any repairs conducted to a TS roof must be conducted by an authorized TS contractor.
5. Owner shall inform the installation contractor of any leak in the roofing membrane as soon as is reasonably possible and in any event within five (5) days of Owner becoming aware of leak. Owner shall immediately take all reasonable steps, at its sole cost and expense, to control the leak and mitigate the associated damage. Reporting any leak is considered Owner's permission and authorization for TS, or its authorized contractors to investigate the matter further, including access to the property for the purpose of inspecting the roof.
  - a. If, after its inspection, TS determines in good faith that the cause of the leaks are outside of the scope of this warranty, Owner shall pay for TS's investigation and inspection costs. TS may advise the Owner of the type of repairs necessary to correct the leaks and cause the then remaining portion of this warranty to remain effective. This warranty shall automatically terminate if Owner fails to promptly make or cause to be made any such repairs or fails to pay such investigation and inspection costs.
6. Provided that the terms and conditions of this Warranty are complied with, and subject to the limitations set out herein, if there is a failure, as reasonably determined by TS, of the roofing membrane for the particular project listed below, within the specific scope of this warranty during the period in which this Warranty is in effect TS will, at its sole discretion, either return the affected roofing section to a watertight condition or issue credit against the purchase and install of new materials. This credit or replacement will not monetarily exceed the cost of the original membrane purchase and does not cover workmanship issues. TS reserves the right to request a copy of the warranty and original installation contract with the TS Authorized Contractor for verification.
7. The remedies stated in s.7 herein are the sole and exclusive remedies of Owner under this warranty or otherwise for any failure of the roofing membranes described below. Without limiting the foregoing, TS shall under no circumstances be liable for any indirect, incidental, punitive or consequential damages of any nature or kind whatsoever, including but not limited to damages to the building or the contents of the building. Replacement claims and credits offered by TS, at our sole discretion, carry no cash value. TS shall not be held liable for specified design criteria, applicable local building codes or standards, or suitability of materials or systems from third parties (Architects, Engineers, Specifiers, etc).
8. Owner shall be responsible for removal and replacement of overburden such as solar arrays, temporary structures, roof gardens, planters, utilities, decks and patios, miscellaneous overburden, or mechanical equipment that would impede inspections. Any installation of these types of overburden may require additional protection as approved by TS prior to the overburden installation in accordance with the TS Overburden Warranty Coverage Form.
9. EXCLUSIONS OF WARRANTIES: EXCEPT AS OTHERWISE EXPRESSLY STATED IN THIS WARRANTY, THERE ARE NO EXPRESS OR IMPLIED WARRANTIES OF ANY KIND OR NATURE WHATSOEVER, STATUTORY OR OTHERWISE, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE. NO REPRESENTATIVE OF TS HAS AUTHORITY TO MAKE ANY REPRESENTATIONS OTHER THAN THOSE EXPRESSLY STATED HEREIN.
